PREFACE

This volume is a compilation of marriages recorded in Marriage Record Books 5, 6, 7 and 8, 1871 - 1899, on file in the Probate Court Office, Shelby County Court House Sidney, Ohio. Marriages are listed alphabetically by grooms' names; an index of brides' names has been included.

Earlier marriages may be found in Marriage Records of Shelby County, Ohio, Volume 1, 1819 - 1870.

The date a marriage took place may not have been reported back to the court; in these instances we give the date the license was issued. Comments with regard to consents, verifications of age, prior marriages, etc., are shown immediately following the entry to which they apply. Beginning in 1895, ages and residences were recorded on most license applications.

Although many Catholic marriages were recorded at the Probate Court, some were not. A license was not required when banns were published. Priests generally recorded the marriages they performed but often this was done after some time had elapsed.

Commencing with Marriage Record Book 9 each volume of records in the Probate Court contains indexes of both brides and grooms.

Although great care has been taken to transcribe these records accurately, the usual problems of fading ink, poor penmanship and misspellings of names inevitably result in some errors of interpretation. Variant spellings are frequently found within an entry; these variations are included when they are significant. The compilers recommend that readers look for all possible spellings of a surname.

May 1983
